

CAPTIVA

When it comes to selecting the right door for your project, we're with you every step of the way. We pride ourselves on creating doors that match your design vision, make functional sense for your space and fall within your budget.

CAPTIVACUSTOM.COM

The Architectural Concepts Advantage

Cope and Stick, Stile and Rail Construction

Architecturally correct, allows endless design possibilities
Zero gaps at stile and rail joints
Custom profiles are welcome

Superior Poplar Wood Edge

Developed to have a continuous bond with the MDF core
Increases the structural rigidity of the door

Machining Capabilities

Doors are perfectly square and sized
All edges are rounded over, even top and bottom

Superior Exterior Primer

High-end, High-build WDMA primer developed for MDF
No orange peel and sands easily
Works with any top coat

Prefinishing Capabilities

High-end, durable, waterborne polyurethane
Exceeds KCMA test requirements
Most colors and sheens can be achieved

Fire Ratings

20-90 min available on most designs
Includes many glass designs
(Scan code to the right for the full door catalog)
