

SHAKER DOORS

Introducing the new Shaker doors.

This Shaker door features a clean look with crisp edges, a style rooted in the arts and crafts movement, celebrating craftsmanship and nature-inspired designs with simple lines. This innovative design eliminates the doorglass frame, providing a sleek appearance with enhanced viewing area.

FLUSH GLAZED

- Satin Smooth Fiberglass
- Composite Top & Bottom Rails
- LVL Stiles With Composite PVC Cap
- Square Composite Edge
- Optional Prefinishing

Shaker Profile

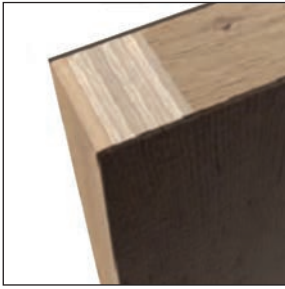

Panels are crafted to embody a true clean shaker style, featuring flat panels, square edges, and minimal detailing for a modern aesthetic.

APPLIED SDL

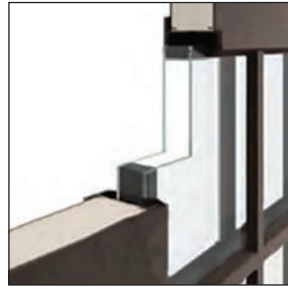

BUILT WITH INDUSTRY-LEADING COMPONENTS

TRUE SQUARE COMPOSITE EDGE

Fiberglass doors designed with the square edge details of a real wood door.*

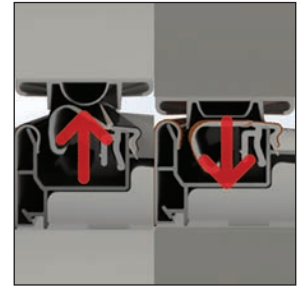

INSULATED GLASS

Reduces energy costs and prevents condensation.

FIBERGLASS SKIN

Resists warping, rotting, rusting and denting. The composite edge creates a complete barrier surrounding the wood within the door system.

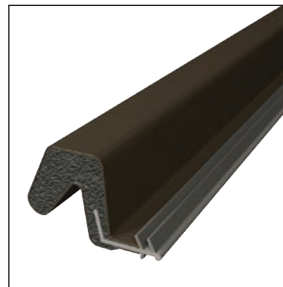

Z-ARTICULATING CAP SILL™ (Z-AC)

Automatically adjusts to form a watertight seal, even against imperfect openings.

COMPOSITE DOOR FRAME OR FRAMESAVER®

Never absorbs water, rot, cracks or wraps.

PE650® WEATHERSTRIPPING & SIMPLE SOLUTION® CORNER PAD PATENTED DESIGNS

Seals out air and water.

PANOLOCK+ (Optional)

A one-of-a-kind multi-point lock that works with off-the-shelf hardware at an affordable price.

Scan to check your lock's capability

* Note: The image shown is of a door cutout, no wood is exposed on the final product.
